

GYNECOLOGIC ONCOLOGY PROGRAM

THE UNIVERSITY OF ARIZONA
CANCER CENTER

- A National Cancer Institute-designated Comprehensive Cancer Center
- University-based physicians and resources including physician-scientists knowledgeable in cutting-edge treatments
- Personalized treatment by a nationally renowned team of specialists

The Gynecologic Oncology Program

Gynecologic oncologists have expertise in female reproductive cancers. These include ovarian, uterine, cervical, vaginal, and vulvar cancers as well as those that arise in pregnancy. Our physicians are proficient in prevention, screening, diagnosis, surgery, chemotherapy and palliative care, all within the breadth of one specialty. This provides the continuity essential to high-quality patient care and satisfaction. The gynecologic oncologists at The University of Arizona Cancer Center work with physicians from other specialties to provide patients with excellent cancer care. Clinics are also dedicated to patients at high risk for gynecologic cancer. Physicians participate in a bi-monthly gynecologic oncology tumor board for discussion of patient diagnosis and coordination of care.

Surgery

Provide surgical treatment of benign, pre-malignant and malignant diseases of the female reproductive tract.

- Radical surgery for ovarian cancer debulking, cervical cancer, vulvar and advanced cancers
- Minimally invasive surgery including robotic- or laparoscopic-assisted surgery, for cancer staging and treatment for cervical cancer and uterine cancer
- Palliative surgery
- Reconstructive surgery including muscle flaps for vulvar reconstruction, urinary conduits and bowel surgery related to cancer treatment
- Fertility-sparing surgery for early-stage cancers when appropriate
- High risk evaluation and treatment including counseling for risk reduction, novel clinical trials and prophylactic oophorectomy/hysterectomy
- Evaluation and management of pre-malignant conditions of the vulva, vagina and cervix including laser ablation therapy

Chemotherapy

Provide state-of-the-art chemotherapy tailored to individual needs

- Chemotherapy including: neoadjuvant chemotherapy, adjuvant chemotherapy, consolidation therapy, salvage chemotherapy, and hormonal therapy
- Clinical trials, including both national multi-institution (Southwest Oncology Group and Gynecologic Oncology Group) and local trials designed by our own physicians
- Intraperitoneal chemotherapy
- Chemotherapy for radiation sensitization
- Translational laboratory research focusing on ovarian cancer biology uncovering the fundamental basis for cancer metastasis

Radiation

Provide state-of-the art gynecologic cancer radiation tailored to patient needs

- Intensity modulated radiation therapy
- Vaginal brachytherapy, both high and low dose
- External beam radiation
- Palliative radiation

GYNECOLOGIC ONCOLOGY PROGRAM

Psychosocial Oncology

Specially trained psychiatrists, therapists and social workers support patients and their loved ones in their fight against cancer with individual therapy, support groups and medical therapy

High-Risk Program

Evaluation for genetic cancer syndromes, genetic counseling and testing geared to women at risk for ovarian and breast cancer. Prevention and treatment options offered in a multidisciplinary fashion by medical geneticists, gynecologic and medical oncologists, and a genetic counselor.

The Team

Gynecologic Oncology

(comprehensive care including surgery, chemotherapy, high risk evaluations, clinical trials)

Setsuko Chambers, MD
Janiel Cragun, MD
Kenneth Hatch MD
Samantha Pinkerton, RN
Stephani Taylor, RN
Ana Villela, RN
Anna Salazar, Scheduler

Medical Oncology

David Alberts, MD
Michael Bookman, MD

Radiation Oncology

Shona Dougherty, MB, ChB, PhD
Lisa Hazard, MD

Palliative Care

Ellyn Lee, MD

Gynecologic Pathology

Wenxin Zheng, MD

Clinical Trials Team

(chemotherapy, high risk, quality of life trials)

Setsuko Chambers, MD
Janiel Cragun, MD
David Alberts, MD
Michael Bookman, MD
Ana Maria Lopez, MD
Jan Cohen, RN, OCN
Heather Wright, Coordinator
Kathryn Hillman, Study Coordinator

High Risk Clinic

Setsuko Chambers, MD
Joanne Jeter, MD
Christina Laukaitis, MD, PhD
Michelle Bratton, Dietician
Gail Martino, MS, CGC
Zöe Powis, MS, CGC
Brenda Casey, Social Worker, LMSW
Samantha Pinkerton, RN
Stephani Taylor, RN

Social Work

Brenda Casey, LMSW
